Limited Audit Report on Interim Consolidated Financial Information

To the Board of Directors of Kafein Yazılım Hizmetleri Ticaret A.S.

Introduction

We carried out audit on the accompanying consolidated statement of financial position dated 30 June 2021 and the date table for the same six-month period and the historical table of another six-month period ended, and all other family statements, consolidated equity statements. We carry out the audit of the text and the consolidated value statements of the report, the summary of the accounting report and other explanatory footnotes of Kafein Yazılım Hizmetleri Ticaret Anonim Şirketi and its Affiliates ("Group"). The Group management is responsible for the fair preparation of the said interim consolidated financial information in accordance with the Turkish Accounting Standard 34 "Interim Financial Reporting" Standard ("TAS 34") published by the Public Oversight Accounting and Standards Authority ("POAASA"). Our responsibility is to inform about the result of the said interim consolidated financial information based on the audit we performed.

Scope of Limited Audit

Our limited audit was conducted in accordance with the Limited Independent Audit Standard (LIAS) 2410 "Limited Independent Audit of Interim Financial Information by the Auditor who carries out the Independent Audit of the Annual Financial Statements of the Company". The limited audit regarding the interim financial information consists of questioning mainly the persons in charge of finance and accounting as well as the analytical procedures. The scope of limited audit of the interim financial information is quite limited compared to scope of the independent audit which is conducted as per the Independent Audit Standards that aims at providing information on financial statements. As a result, the limited auditing of the interim financial information does not ensure that the auditing company has a good grasp of all the significant matters which may be encountered during an independent audit. Therefore, we haven't presented an independent audit opinion, hereby.

Conclusion

Based on our limited audit, we have observed that the accompanying interim financial information are accurate and truthful, in all material respects of the Group's financial position, financial performance and cash flows for the six-month period ended 30 June 2021, in accordance with TAS 34 "Interim Financial Reporting" Standard.

İstanbul, 17 Ağustos 2021

NOTE 2-GUIDELINES ON SUBMISSION OF FINANCIAL STATEMENTS

2.1. Basic Guidelines on Submission of Financial Statements and Declaration of Conformity to the Turkish Accounting Standard

The Company keeps and prepares its statutory books and financial statements in accordance with the Turkish Trade Law and Uniform Account Plan and principles issued by Ministry of Finance of Turkey.

The accompanying financial statements are prepared in accordance with the Taxonomy of TAS in 2016 and the provision "Notice on Guidelines for Financial Reporting In Capital Market" ("Notice"), Seri II, No.14.1 of the Capital Market Board ("CMB") as published in the copy dated 13.06.2013 and numbered 28676 of the Official Gazette and based on the Turkish Accounting Standards / Turkish Financial Reporting Standards ("TAS"/TFRS"), which are put into force by the Public Oversight Accounting and Auditing Standards Authority ("POA") pursuant to article 5 of the Notice, and its relevant appendices and comments.

The Group's financial statements and notes are presented in accordance with the formats announced by the CMB with the announcement dated 7 June 2013 and including the mandatory information thereof.

The financial statements of the Group are in accordance with the TAS taxonomy published with the current name "2019 TFRS" published by the POAASA on 2 June 2016 with the decision no. 30 along with the amendments to the TFRS-15 Revenue from Contracts with Customers and the TFRS16-Leasing Standard.

The Group's financial statements prepared in accordance with TAS/TFRS accepted by POAASA were approved by the Board of Directors on 17 August 2021. The General Assembly has the power to change the financial statements after the publication.

Reporting Currency

The financial statements of the Group are presented in the currency (functional currency) that is valid in the basic economic environment in which its. The financial position of the Group and the results of its operations are expressed in TL, which is the functional currency of the Group and the presentation currency for the consolidated financial statements.

Adjustment of Financial Statements in High Inflation Periods

With the resolution B.02.1.SPK.017 / 152-7642, which was obtained by Capital Market Board on March 18, 2005, the company has declared that the application of inflation accounting is not necessary effective from 1 January 2005 for companies preparing financial statements accounting and reporting principles ("CMB Financial Reporting Standards") operating in Turkey and accepted by the CMB. Accordingly, in the financial statements, as of January 1, 2005, 29 numbered "Financial Reporting in Hyperinflationary Economies" standard ("IAS 29") issued by the IASB has not been applied.

According to aforementioned resolution, the consolidated financial statements of the current and prior periods don't subject to keep inflation adjustments not due to realize necessary conditions to make any inflation adjustments.

Non-monetary assets and liabilities and equity items included in the current and previous period financial statements are reported with their nominal values.

Comparative Information and Amendment of the Financial Statements for the Previous Period

Financial statements are prepared in comparison with the previous period in order to allow the determination of financial status and performance trends. Statement of Financial Position (Balance Sheet), as of June 30, 2021 and December 31,2020; Profit or Loss and Other Comprehensive Income Statement, Statement of Changes in Equity and Cash Flow Statement were comparatively prepared as of June 30, 2021 and June 30,2020.

On 12 November 2020, Kafein Yazılım Hizmetleri Ticaret A.Ş.purchased 51 percent of Karmasis and it is included in the scope of consolidation based on the financial statements of Karmasis for the period ending on 31 October 2020, which is the closest reporting period to the date of the acquisition.

When the presentation or classification of the items of the financial statements changes, in order to ensure comparability, the previous period financial statements are also reclassified accordingly and important differences are disclosed.

KAFEİN YAZILIM HİZMETLERİ TİCARET A.Ş.

FOOTNOTES REGARDING CONSOLIDATED FINANCIAL STATEMENTS AS OF JUNE 30, 2021

(All amounts are expressed in Turkish Lira ("TL"))

Transactions in Foreign Currency

The Group considers the relevant exchange rates valid at the transaction date, while it converts any transactions conducted in foreign currency, and their balances to Turkish Lira. Monetary assets and liabilities in foreign currency are assessed in exchange rate announced by the Turkish Central Bank at the balance sheet date. Any exchange difference incomes and expenses arisen from conversion of any transactions in foreign currency to Turkish Lira or expression of monetary items are reflected to the income/ (expense) statement in the respective period.

Offsetting – Deduction

The financial assets and liabilities are shown as net values, where any necessary legal rights are available, and it is intended to assess such assets and liabilities as net values, or the assets and liabilities are obtained and fulfilled simultaneously.

Assumption on Going Concern

The financial statements are prepared on the going concern basis by assuming that the Group shall get benefit from assets and perform its obligations within next year and in the ordinary course of its business activities.

It has been declared a "Pandemic" by the World Health Organization due to the COVID-19 outbreak, and the epidemic is still continuing. both the impact of the epidemic in the world as well as how long it will continue in Turkey, it is unclear how much can be spread. While preparing the consolidated financial statements dated June 30,2021, the Group evaluated the possible effects of the Covid 19 outbreak on the financial statements and reviewed the estimates and assumptions used in the preparation of the consolidated financial statements. In this context, possible impairment losses in the consolidated financial statements dated June 30,2021 have been evaluated and no significant impact has been identified.

In this process, the necessary actions were taken by the Group management to minimize the possible effects of Covid 19 on the Group's activities and financial status. In the meantime, actions were taken by the Group for investment expenditures and operational expenses, and the cash management strategy was reviewed by examining the payment and collection terms in order to strengthen its liquidity position.

2.2. Changes in Accounting Policies

Accounting policy changes resulting from the first application of a new standard are applied retrospectively or prospectively in accordance with the transition provisions, if any. Changes without any transition requirement, optional significant changes in accounting policies or detected accounting errors are applied retrospectively and the financial statements of the previous period are restated. The accounting policies applied in the comparative financial statements of the Group are the same.

In order to comply with the presentation of the current period condensed consolidated financial statements, comparative information is reclassified when necessary and significant differences are disclosed.

2.3. Changes and Errors in Accounting Estimates

Accounting estimates are based on reliable information and reasonable estimation methods. However, estimates are revised in case of changes in circumstances of estimation, obtaining new information or additional developments. If the impact of the change in accounting estimate is related to only one period, it is reflected in the financial statements in the current period in which the change is made, if it is related to the future periods, it is reflected prospectively in the financial statements both in the period in which the change is made in consideration of determining the period profit or loss.

Detected significant accounting errors are applied retrospectively and previous period financial statements are restated. An error is corrected by restating the comparative amounts for prior periods when it occurs, or by restating the retained earnings account for the period in question prior to the next reporting period. If the reorganization of the information causes an excessive cost, the comparative information of the previous periods is not reorganised and the accumulated profit account of the following period is rearranged by the cumulative effect of the error before the beginning of the period in question.

2.4. Summary of Significant Accounting Policies

2.4.1 Consolidation principles

Consolidated financial statements include the financial statements of Kafein Yazılım Hizmetleri Ticaret A.Ş. (Company) and the financial statements of the said Company's subsidiaries. During the preparation of the financial statements of the companies included in the scope of consolidation, necessary adjustments and reclassifications have been made in order to comply with the TAS / TFRS and the accounting policies and presentation formats applied by the Group.

The principles for preparing consolidated financial statements is as follows;

- The consolidated financial statements include the financial statements of the Company and its subsidiaries.

KAFEİN YAZILIM HİZMETLERİ TİCARET A.Ş.**FOOTNOTES REGARDING CONSOLIDATED FINANCIAL STATEMENTS AS OF JUNE 30, 2021****(All amounts are expressed in Turkish Lira ("TL"))**

- Subsidiaries represent the entities in which the parent company has more than 50% of the shares, voting rights or the majority of the management or the right to elect the majority of the management through capital and management relations, either directly or through other subsidiaries or participations. The controlling power is defined as the parent company's power to manage the financial and operating policies of its subsidiaries and to provide benefits from the activities.

- Subsidiaries are included in the scope of consolidation as of the date control over their activities is transferred to the Group, and will be excluded from consolidation at the date when control is abolished. Accounting policies applied by the subsidiaries have been aligned with the accounting policies applied by the Group in order to ensure consistency.

- The financial statements of the subsidiaries are consolidated using the full consolidated method. In this context, the carrying value of the subsidiaries and the shareholders' equity is netted off, the carrying amount of the shares held by the Company and the dividends arising from them are netted from related equity and income statement accounts.

- The receivables and payables of each of the subsidiaries within the scope of consolidation and the sales of goods and services to each other and the revenue and expense items arising from transactions with each other are mutually offset.

- Amounts corresponding to minority interests excluding the interests of parent company and subsidiaries are deducted from all equity accounts group items, including the paid-in capital/issued capital, of the subsidiaries within the scope of consolidation, and shown under the name "Non-controlling interests" in the equity account group of financial statement.

Subsidiaries and Participations

The partnership ratios of subsidiaries and participations are as follows:

	June 30, 2021					December 31, 2020				
	Equity of Subs.	Subsidiary Rate (%)	Total Voting rights (%)	Number of Subsidiary Shares	Amount of Subs.	Equity of Subsidiary	Subs. Rate (%)	Total Voting rights (%)	Number of Subsidiary Shares	Amount of Subsidiary
Smartiks Yazılım A.Ş.	31.862.500	6,43%	%49,80	2.050.000	20.072.836	31.862.500	6,43%	%49,80	2.050.000	20.072.836
Intranet Yazılım A.Ş.	1.500.000	51%	%51	765.000	765.000	1.500.000	51%	%51	765.000	765.000
Karmasis Bilişim Çözümleri Tic.A.Ş.	5.000.000	51%	51%	2.250	2.250.000	5.000.000	51%	51%	2.250	2.250.000

As of 31.12.2019, the participation rate of Kafein Yazılım Hizmetleri Ticaret A.Ş. (Company) in Smartiks Yazılım A.Ş. is 34.01% and voting rights are 41.73%. The company made a total of 9.770.000 sales transactions from the shares of Smartiks Yazılım A.Ş. on 25.06.2020 and 26.06.2020. With this transaction, the Company's Smartiks Yazılım A.Ş. its share in its capital is 3.35% as of 30.06.2020; voting rights fell to the limit of 25.88%. This time, the company purchased 982.500 Class A privileged shares belonging to Smartiks Yazılım A.Ş., on 08.07.2020. With this transaction, the participation rate of Smartiks Yazılım A.Ş. increased to 6.43% and the total voting rights rate to 49.80%. Since its privileged shares have the authority and control power to determine the board of directors of Smartiks Yazılım A.Ş. and to determine financial activities and policies, it has consolidated Smartiks Yazılım A.Ş. as of June 30, 2021.

Kafein Yazılım Hizmetleri Ticaret A.Ş. has 51% (31.12.2020- 51%) majority share of Intranet Yazılım A.Ş. The said subsidiary was included in the scope of consolidation as of 31 December 2019 for the first time and is consolidated according to the full consolidation method.

As a result of the decision taken at the Board of Directors Meeting dated November 9, 2020, the company has decided to sell 67.500 shares in KTEC Yazılım Teknolojileri Yatırım A.Ş. for a price of 67.500 TL.

On 12 November 2020, Kafein Yazılım Hizmetleri Ticaret A.Ş. purchased 51 percent of Karmasis and it is included in the scope of consolidation based on the financial statements of Karmasis for the period ending on 31 October 2020, which is the closest reporting period to the date of the acquisition.

Non-controlling Shares

The Group considers the buying and selling of the shares which are not controlled by the non-controlling interests and the shares owned by the subsidiaries that it currently controls, as transactions between the Group's shareholders. Accordingly, the difference between the cost of acquisition and the carrying amount of the net assets of the subsidiary is accounted for under equity for additional share purchases from non-controlling interests. In the case of share sales to non-controlling interests, any gains or losses arising from the difference between the selling price and the carrying amount of the net assets of the subsidiary are also accounted in equity.

Changes in the rates held by non-controlling interests

In case the equity ratio held by non-controlling interests changes, the Group adjusts the book values of the controlling and non-controlling interests in order to reflect the changes in their relative interests in the subsidiary. The difference between the amount corrected for non-controlling interests and the fair value of the amount paid or received is directly accounted for in equity.

2.4.2 Business Combinations and Goodwill

The acquirer, obtaining the control of one or more entity, or any other transaction is defined as business combination.

The business combinations under the standart TFRS 3 'Business Combinations' are recognized by applying acquisition method. The acquisition cost related to the acquisition of a company, is distributed to the identifiable assets acquired, the liabilities assumed and contingent liabilities of the acquired company. The costs related to acquisition transaction is expensed in the period in which the costs are incurred.

The goodwill is recognized as the value transferred for the sale process exceeds the net value of the non controlling shares of acquired company and if any,of the acquiree company's the total of fair value of the equity shares those were previously held in the business combination recognized hierarchicly, the acquired company's net value of identifiable assets and liabilities at the date of acquisition.

If the fair value of the contingent consideration needs to be adjusted as a result of additional information emerging during the measurement period, this adjustment is adjusted retrospectively from goodwill. The measurement period is the period after the merger date in which the acquirer can correct the temporary amounts accounted for in the business combination. This period cannot be more than 1 year from the date of purchase.

In cases where the acquisition accounting for the business combination is not completed at the end of the reporting date, the Group reports temporary amounts for items for which the recognition process could not be completed. These provisionally reported amounts are adjusted during the measurement period or extra assets or liabilities are recognized to reflect the new information obtained on events occurring on that date, which may have an impact on the amounts recognized at the date of acquisition.

If the transferred value over the fair value in the acquisition date by the acquirer, is over the net values of identifiable assets acquired and identifiable liabilities assumed in the acquisition date, the amount is measured as goodwill in the Company. As of the acquisition date, the acquirer, separately from goodwill, accounts for identifiable assets acquired and liabilities assumed and non-controlling shares (minority interest) of acquired company. The acquired identifiable assets and assumed identifiable liabilities recognition is made by consistency to the Conceptual Framework's asset and liability definition.

In the business combinations, the assets, the intangible assets and contingent liabilities that are not in the financial statements of acquired company, but are in goodwill item and that are able to be discriminated are reflected in the consolidated financial statements with fair value. The goodwill amount in the acquired company's financial statements is not regarded as identifiable asset.

If the acquirer's share of acquired identifiable asset, liability and contingent liability's fair value is over the business combination cost the difference is associated with profit or loss. For every acquisition the acquired company's minority shares are accounted with share of net assets of the acquired company.

After the goodwill is recorded initially, it's reflected to financial statements at the acquisition date less any accumulated impairment losses. The goodwill should be tested yearly or more often if there is a probability of value loss. If the recoverable amount is less than the amount in the records, the impairment loss is valued in the consolidated income statement.

In the test of impairment, the goodwill during the purchase transaction, is distributed among the cash generating unit or groups waiting for benefits, without regarding the impliance of other assets and liabilities after the purchase. The units or groups in which the goodwill is distributed, represents the smallest unit or group for management purposes. The impairment losses over the goodwill can not be cancelled. The gains and losses of selling of one corporation includes the recorded value of goodwill over the corporation sold.

2.4.3 Cash and Cash Equivalents

Cash states cash and drawing accounts in the enterprise. Cash equivalents state any assets held for any short-term cash obligations and not used for investment or other purposes. It is essential that its value may be converted certainly to a cash value and the risk to change its value is negligible for any asset to be accepted as a cash equivalent.

Cash and cash equivalents are integral part of the cash management of the enterprise. Any financial instruments to be included in the scope of cash equivalents consist of cheques (current type), liquid funds, short-term bonds and drafts, receivables from reverse-repo transactions, deposit accounts with a term shorter than 3 months (any deposit account longer than 3 months is shown among financial investments), and government bonds and treasury bonds with remaining due date shorter than 3 months on acquisition date, or any other liquid debt instruments, and any receivables from money market.

Cash and cash equivalents in the financial statements of the Group as cash in hand as of the balance sheet date and the demand deposits are reported.

2.4.4 Financial Investments

The Group recognizes its financial assets in three classes as financial assets that are recognized at amortized cost, their fair value difference is reflected in the other comprehensive income statement, and their fair value difference is reflected to profit or loss. Classification is made on the basis of the business model used by the enterprise for the management of financial assets and the characteristics of the contractual cash flows of the financial asset. The Group makes the classification of its financial assets on the date of purchase.

"Financial assets measured at amortized cost" are non-derivative financial assets that are held within the scope of a business model that aims to collect contractual cash flows and that have cash flows that include only the principal and interest payments arising from the principal balance at certain dates in contract terms.

"Financial assets at fair value reflected to other comprehensive income" consists of equity-based financial assets and debt instruments. The group measures these assets at their fair value.. Gains or losses arising from related financial assets other than exchange difference income or expenses are reflected in other comprehensive income. In case equity-based financial assets are sold, valuation differences classified into other comprehensive income are classified into previous years' profits. In cases where debt instruments are derecognised, gains and losses previously recognized in comprehensive income are classified from equity to income statement.

For investments in equity-based financial assets, the Group may irrevocably opt for the method of reflecting subsequent changes in fair value to other comprehensive income at initial recognition. In the event that the said choice is made, the dividends obtained from the relevant investments are accounted in the income statement.

"Financial assets at fair value through profit or loss" consist of financial assets excluding financial assets measured at amortized cost and at fair value through other comprehensive income. Gains and losses resulting from the valuation of these assets are accounted in the consolidated income statement.

2.4.5. Derivative Financial Instruments

Any derivative financial instruments, which are appropriate the definition "financial asset or financial obligation" in TAS 32, are calculated in accordance with the provisions of the TAS 39 (TFRS 9), and submitted furthermore in the financial statement.

The Group does not have any derivative instruments as of the balance sheet date.

2.4.6. Receivables from Financial Sector Activities

Any receivables other than cash and cash equivalents and resulted from the financial sector are shown here.

As of the balance sheet date, the Group does not have any receivables from finance sector activities.

2.4.7. Trade Receivables / Related Parties

They are receivables from customers taken to the financial statements for all or part of a revenue.

In accordance with TFRS 15 Revenue from Customer Contracts, commercial receivables arise when the entity's unconditional right to charge the customer is expected to be collected. The right to receive the price is unconditional, but only if the collection of the price depends on a term.

Therefore, in order for a receivable to be a commercial receivable, the invoice must be issued or in a similar manner to be agreed in a binding manner with the customer. In cases where the enterprise has performed its performance by transferring its goods or services to the customer before the right to receive the price unconditionally, no commercial receivable will arise, the related asset is shown in the "Contractual Assets" item. The part of trade receivables from

KAFEİN YAZILIM HİZMETLERİ TİCARET A.Ş.

FOOTNOTES REGARDING CONSOLIDATED FINANCIAL STATEMENTS AS OF JUNE 30, 2021

(All amounts are expressed in Turkish Lira ("TL"))

related parties is shown in a separate sub-item. Deposits and guarantees given are shown in other receivables, not under this item.

If any, late interests, interests, etc. of the trade receivables are shown not in the provisions for revenue, but in the provisions for interest incomes, exchange differences, etc. in the financial statements, and these amounts are also shown in the trade receivables and the relevant statements are made in the footnotes. Such interest incomes, exchange differences, etc. are also shown in the other real operating income in Profit or Loss and Other Comprehensive Income Statement.

Even if the time elapsed for foreclosure of the trade receivables is longer than 12 months, it is essential that such receivables must be classified in the current assets in the regular course of business of the enterprise.

Related Parties

The Group's related parties include entities that can directly or indirectly control or significantly affect the counterparty through shareholder, contractual right, family relationship or similar means. In the accompanying financial statements, the shareholders of the Group and the companies owned by such shareholders, their key management personnel and other companies known to be related are identified as related parties.

2.4.8 Contract Assets

It is used in tracking assets defined as contract assets in TFRS 15. According to TFRS 15, contract assets are the right of the enterprise to receive the price that is subject to another condition (for example, the future performance of the enterprise), except for the expiration of time, in return for the goods or services transferred to the customer. The total amount of contract assets is shown separately in the statement of financial position.

2.4.9 Other Receivables

Receivables excluding trade receivables and financial investments. Deposits and guarantees given, other receivables from related parties, receivables from public administrations other than assets related to current period tax and other various receivables can be shown as examples. The part of these receivables from related parties is shown in a separate sub-item in accordance with the sample format.

2.4.10. Inventories

It is an item, in which any assets that are available as substances and materials held to sell, manufactured to sell, and to be used during manufacturing process or service delivery in the regular course of business of the enterprise, are shown. The advances given for purchase orders have not a nature of inventories, and are shown in the "Prepaid Expenses," until the inventory accounting is conducted.

2.4.11. Alive Assets

If the current assets included in the TAS 41, and any agricultural products collected during harvest relate to the agricultural activities, they are shown in this item. This item is used by the enterprises, which deal with agricultural activities only.

The Group does not have any biological assets as of the date of financial statement.

2.4.12. Prepaid Expenses

All amounts paid usually to the suppliers and to be transferred to the expense and cost accounts in a subsequent period (or period) are shown in this item. If the item is negligible, such amounts are submitted in the other current/non-current assets.

2.4.13. Assets Related To the Current Period

Pursuant to the Income Tax Standard TAS 12, any assets such as various taxes and funds related to the current period tax payable over revenue prepaid and possibly subject to discount are shown in this item.

2.4.14. Other Current/Non-Current Assets

The current/non-current assets such as transferred VAT, VAT discount, other VAT, counting and acceptance points are shown in this item.

2.4.15. Non-current Assets Classified For Sales Purpose

Pursuant to the Standard on Non-Current Assets and Discounted Operations TFRS 5, any non-current assets classified for sales purpose, because their book value shall be recovered by means of the sales procedure rather than use, and all assets to be sold are shown in this item.

Furthermore, pursuant to the TFRS 5, any non-current assets classified for purpose of distributing them to the shareholders and all other assets to be sold are also shown in this item since it is committed to distribute them to the shareholders. In this case, this item is called so as to state these assets.

KAFEİN YAZILIM HİZMETLERİ TİCARET A.Ş.
FOOTNOTES REGARDING CONSOLIDATED FINANCIAL STATEMENTS AS OF JUNE 30, 2021
(All amounts are expressed in Turkish Lira ("TL"))

The Group does not have any non-current assets classified as held for sale as of the date of financial statement.

2.4.16. Investments Assessed By Equity Method

Pursuant to the Standard on Investments in Subsidiaries and Business Associates TAS 28, any subsidiaries and business associates assessed by equity method are shown in this item.

The Group has no affiliates and business associates assessed by equity method as of the financial statement period.

2.4.17. Investment Property

Pursuant to the Investment Property Standard TAS 40, any real properties (lands, buildings part of a building) acquired (by their landlord or tenant according to the financial leasing agreements for purposes of obtaining a rental income or capital gains income or both of them) are shown in this item. If the real property is subject to the financial leasing, the details specified in three Standards on Leasing Operations TAS 17 are added.

If it is included in the definition of investment property and the tenant uses the fair value method, it is possible that a right for a real property held by the tenant under the operating lease is shown as an investment property in this item.

The Group does not have any investment property.

2.4.18. Tangible and Intangible Fixed Assets

Tangible Assets:

Tangible assets are stated at cost value by deducting accumulated depreciation and accrued depreciation, if any.

The cost value, purchase price, import duties and non-refundable purchase taxes of the tangible assets are the costs incurred to make the tangible asset ready for use. Maintenance and repair costs are recognized in profit or loss in the period in which they are incurred.

Depreciation of tangible fixed assets is determined by using the straight-line method based on the useful lives of the assets. The expected useful life is reviewed annually for the possible effects of the changes in the depreciation method and the estimates and is accounted for prospectively if there is a change in the estimates.

The estimated useful lives of tangible assets are as follows:

	<u>Useful Life</u>
Vehicles	5-10 Years
Furniture and Fixtures	3-4-5-6-7-8-10-15-16-50 Years
Special Costs	5 Years

When a tangible asset is sold, or if no future economic benefits are expected from its use or sale, it is excluded from the statement of financial position. The gain or loss arising on the sale or retirement of a tangible asset is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in profit or loss.

The advances given for the purchases of tangible assets are shown under "Prepaid Expenses" item rather than this item until the relevant asset is capitalized.

-Right of Use Assets

According to TFRS 16 Leases, the lessee is required to present right-of-use assets separately from other assets in the statement of financial position or in the notes. Businesses that prefer to show their right of use assets separately in the statement of financial position show these assets in this item.

-Intangible Assets:

a.Intangible assets acquired

Intangible assets are stated at cost value by deducting accumulated amortization and depletion expenses and depreciations.

Expected useful life, residual value and depreciation method are reviewed every year for the possible effects of the changes in the estimations and they are accounted for prospectively if there is a change in the estimates.

KAFEİN YAZILIM HİZMETLERİ TİCARET A.Ş.

FOOTNOTES REGARDING CONSOLIDATED FINANCIAL STATEMENTS AS OF JUNE 30, 2021

(All amounts are expressed in Turkish Lira ("TL"))

b. Internally generated intangible assets-research and development expenses

i) Research activities expenses are recognized in profit or loss in the period in which they are incurred.

ii) Expenses within the scope of development activities:

- Capitalized Development Costs

Intangible assets that are created internally as a result of the development of a project that is ordered or initiated with a new idea in the company are capitalized and registered only when all the following conditions are met:

- It is technically possible to complete the intangible asset to be ready for use or ready for sale,
- The intention to complete, use or sell the intangible asset,
- The intangible asset can be used or sold,
- It is known that the asset has a kind of possible economic benefit for the future.
- Having appropriate technical, financial and other resources to complete the development of the intangible asset, use or sell the asset in question, and
- The cost of developing the asset can be measured reliably during the development process.

During the period, the Group management re-examined the existence of possible economic benefits of internally generated intangible assets created internally. The Group management believes that the projects will continue as expected and anticipates that the projects will create economic benefits upon analysis. The management is sure that even if the economic benefit decreases, it is possible to recover the registered values of the assets. This situation is closely monitored by the Group management and management will make adjustments in cases where future market activities require adjustment.

-Special software project expenses:

Special software project expenses, which are specially developed for the customer and cannot be sold to another customer, are recorded as expenses depending on the realization of the revenue as of the date of completion. In special software projects that extend to more than one period; Project expenses, which are determined by matching the revenue amount accrued in connection with the invoice issued within the scope of partial deliveries and the expenses corresponding to the completed part of the project, are recorded as expense in the period of partial delivery. Development expenses related to such special software projects are not capitalized.

The amount of intangible assets created internally is the total amount of expenses incurred from the moment the intangible asset meets the above-mentioned accounting conditions. When intangible assets created internally cannot meet the conditions stated above, development expenditures are recorded as an expense in the period they occur.

After initial recognition, internally created intangible assets are shown over the amount after the accumulated amortization and accumulated impairment losses are deducted from their cost values, just like intangible fixed assets purchased separately.

c. Derecognition of intangible assets

An intangible asset is derecognised when the intangible asset is sold or if no future economic benefit is expected from its use or sale. Any gain or loss arising from the sale of an intangible asset is calculated as the difference between the net proceeds from sale of assets and the book values, if any. This difference is recognized in profit or loss when the related asset is excluded from the balance sheet.

The company's intangible assets item; It includes the acquired rights and computer programs as well as development costs and other identifiable rights related to computer software and programs created within the enterprise. Development costs consist of the wages of the personnel directly involved in the creation of the asset and the costs directly attributable to the creation of the intangible asset. Government incentives associated with development costs are recorded in parallel to the redemption period of intangible assets.

The rates determined by taking into account the useful lives of Intangible Fixed Assets are as follows:

	<u>Useful Life</u>
Brands	15 Years
Computer Programs	3 Years
Capitalized development Costs	2-3-4-5-6-7 Years
Other Intangible Assets	4-10 Years

2.4.19. Deferred Tax Assets

The deferred tax assets include any amounts to be recovered in next periods for any taxes collected upon revenue due to any deductible temporary differences, and any non-used financial losses transferred to next periods, and any non-used tax advantages transferred to next periods.

The item "Deferred tax assets" is not used for any (permanent) amounts, which are not impossible to deduct under the tax legislation.

2.4.20. Short-Term / Long-Term Obligations

The obligations include ones, which shall cause exit of any assets that arise from any events occurred in the past, and if they are paid/executed, shall contain a financial benefit from the enterprise. This definition states basic characteristics of the obligations, and identifies the basic criteria that such obligations must meet to take place in the Financial Statement. Therefore, since the obligation definition meets any criteria to show in financial statements, it also contains any obligations not specified in the Financial Statement.

Pursuant to paragraphs 69-76 of the TAS 1, any obligations having any one of the following characteristics are classified as short-term obligations:

- (a) It is expected that they shall be paid in the regular course of business;
- (b) They are held primarily for commercial purposes;
- (c) They shall be paid within two months following the reporting period (balance sheet date); or
- (d) The enterprise has no unconditional right to defer payment of its obligations for a period of at least two months following the end of the reporting period (balance sheet date). The provisions that the obligation shall be paid by issuing an equity instrument at the counter party's never restrict such obligation.

Entity/establishment classifies all the other liabilities as being long-term.

2.4.21. Borrowings

Of the financial obligations defined in the TAS 32, any borrowings from financial markets such as amortized bank loans, issued bonds, bills and debentures, which have a nature of borrowing, and in other words, which are calculated by the efficient interest method after first accounting, and capital instalments and interests of their long-term type, debts from financial leasing transactions, etc.

Of the financial borrowings, ones, which have the characteristics listed above for short-term obligations, are classified as short-term obligations, and others are classified as long-term obligations.

Pursuant to the Standards on Financial Instruments and Details TFRS 7, any relevant details are given in footnotes.

Leasing Transactions

The leasing transaction, in which the lessee assumes a great portion of risks and acquisitions related the ownership, is classified as financial leasing. Other leases are classified as operating leases.

Leasing- leasing company

Rental income from operating leases is recognized on a straight-line basis over the period of the relevant lease. Direct initial costs incurred in the realization of the lease and negotiation are included in the cost of the leased asset and amortized on a straight-line basis over the lease term.

Leasing- company as leaseholder

Assets acquired through financial leasing are capitalized using the fair value of the asset on the date of lease, or capitalized using the lower of the present value of the minimum lease payments. The liability to the lessor is included in the balance sheet as a finance lease obligation.

Lease payments are allocated as the finance expense and the principal payment that provides for the decrease in the finance lease obligation and thus the interest rate on the remaining principal amount of the debt at a fixed rate is calculated. Financial expenses are recorded in the profit or loss statement except the capitalized portion of the financial expenses in the scope of the general borrowing policy detailed above. Contingent rents are recognized as an expense in the period in which they are incurred.

Payments made for operating leases (incentives received or to be received in order to be able to perform leasing from the lessor are recorded in the profit or loss statement on a straight-line basis over the period of the lease) are recognized in the statement of profit or loss on a straight-line basis over the period of the lease. Contingent rents under operating leases are recognized as an expense in the period in which they are incurred.

KAFEİN YAZILIM HİZMETLERİ TİCARET A.Ş.
FOOTNOTES REGARDING CONSOLIDATED FINANCIAL STATEMENTS AS OF JUNE 30, 2021
(All amounts are expressed in Turkish Lira ("TL"))

Sales and lease back transactions

A sale and leaseback transaction involve the sale of an asset and the leaseback of the same asset. Lease payments and the sale price are usually interdependent, as they are negotiated as a whole. The accounting method of a sale and leaseback depends on the type of leasing transaction involved. In the event that a sale and leaseback result in a financial lease, the portion of the sales revenue above the carrying amount is not recognized as immediate income by the seller-lessor. Instead, the said income is deferred and amortized over the term of the lease. If the leaseback is a financial leasing, the transaction is a tool that the lessor provides financing to the lessee, provided that the leased asset is the guarantee of the transaction. Therefore, it is not right that sales revenues exceeding the carrying amount of the related asset are considered as income. Such excess amounts are deferred and amortized over the lease term.

2.4.22. Short-Term Parts of Long-Term Obligations

This item shows short-term parts of the long-term obligations. If short-term parts of the long-term obligations are negligible, they are shown together with "Short-Term Obligations" under the item "Financial Obligations."

2.4.23. Other Financial Obligations

Of the financial obligations defined in the TAS 32, any obligations, which have not a nature borrowing, and in other words, which arise from the derivative financial instruments not measured from the amortized costs calculated by the efficient interest method after first accounting, and any financial obligations such as financial warranty agreements are shown in this item.

2.4.24. Obligations from Financial Sector Activities

Any obligations arisen from such activities of any corporations, which enter into consolidation and operate in the financial sector, are shown in this item. In the footnote, details are given a sector basis. Their examples include any obligations from banking activities (deposit accounts, participation accounts, etc.), obligations from insurance activities (obligations from insurances and reinsurance activities, deposits, obligation from retirement activities, etc.), obligations from financial leasing activities, etc.

The Group has no Obligations from Financial Sector Activities as of the financial statement period.

2.4.25. Trade Payables

They are obligations owed to third parties in capacity of suppliers.

It is essential that its invoice must be issued or similarly the supplier (customer) and parties agree upon stringently for a debt (receivable) to become a trade debt (receivable) pursuant to paragraph 11 of the Standard TAS 37 Provisions, Contingent Obligations and Contingent Assets. Any debts (receivables), which meet the criteria to include them to the financial statements as of the reporting date, but not agreed upon so yet, are classified as accruals. However, such accruals are shown in the items "Trade Receivables" and "Trade Debts" in the Financial Statements to ensure compliance to any practices in our company.

The received deposits and guarantees are not expressed under this item but under other payables.

If any, late interests, interests, etc. of the trade receivables are shown not in the provisions for revenue, but in the provisions for interest incomes, exchange differences, etc. in the financial statements, and these amounts are also shown in the trade receivables and the relevant statements are made in the footnotes. Such interest incomes, exchange differences, etc. are also shown in the other real operating income in Profit or Loss and Other Comprehensive Income Statement.

Even if the time elapsed for foreclosure of the trade receivables is longer than 12 months, it is essential that such receivables must be classified in the current assets in the regular course of business of the enterprise.

2.4.26. Obligations for Employee Benefits

Any amounts such as pays, salaries, social security contributions, etc. borrowed due to benefits provided to the employees within the respective period are shown in this item. It may also be called alternatively as "Pay Accruals of Employees," etc., provided that it shows its contents. If the item is negligible, such amount is shown in the item "Trade Payables."

2.4.27. Other Payables

They include any obligations, which keep out of the trade payables and arise from any financial activities. Their examples include obligations owed to the related parties, who have not capacity of suppliers or customers, deposits and guarantees received, obligations from public authorities and other miscellaneous obligations.

Any borrowings made from financial instruments for purpose of obtaining finance from the related parties are shown not in this item, but in the short-term or long-term borrowings by their term. If such amounts are negligible, further items are opened for these amounts.

2.4.28 Contractual Obligations

It is used in monitoring the obligations defined as contractual obligations in TFRS 15. According to TFRS 15, the contractual obligation is the obligation of the enterprise to transfer the goods or services to the customer in return for the amount collected (or entitled to collection) from the customer.

A contractual obligation arises if the customer pays the compensation or the entity has the unconditional right (ie a receivable) before a good or service is transferred to the customer. The total amount of contract liabilities is shown separately in the statement of financial position.

2.4.29. Government Incentives and Grants

Pursuant to the TAS 20, if any alternative option is selected for submission of incentives related to assets, any amounts shown as deferred revenue are shown in this item.

2.4.30. Deferred Incomes (Excluding Contractual Obligations)

They are any obligations related to incomes, which are collected completely or partially from customers and other persons or accrued as receivables in that period under the sales agreements and for other reasons, but belong to next periods. If the deferred incomes are negligible, such amount is shown in the other short-term / long-term obligations.

2.4.31. Period Profit Tax Obligation

Part of any taxes collected on any incomes under the TAS 12 as expected to pay to the tax office is shown in this item. Any prepaid taxes of the period profit are deducted from such amount and shown in the item "Assets for the Current Period Taxes."

Tax calculated on basis of the company's earnings

Any tax obligation on profits or losses for the period includes the current period tax and deferred tax.

Current period tax

The current period tax obligation includes any tax obligation entries calculated on part of the taxable profit at tax rates, which are valid and legitimated as of the financial statement date, under the current tax legislation.

Deferred tax

The deferred tax is calculated upon any temporary differences between values of the assets and liabilities entered in the financial statement. Tax values of the assets and liabilities state any amounts to affect tax assessment of such assets and liabilities in next periods under the tax legislation. The deferred tax is calculated on tax rates as expected to apply in the period, when tax asset shall realize or the obligation shall be executed by considering tax rates that are current of become into force as of the financial statement date.

The deferred tax asset or obligation shall be reflected to the financial statements at increase and reduction rates as estimated to be done on any tax amounts payable in any periods, when such temporary differences shall be eliminated. The deferred tax asset is added to the financial statements, provided that any deductible temporary differences are most likely to be utilized to obtain a taxable profit in the future, while the deferred tax obligation is calculated for all taxable temporary differences. The registered value of the deferred tax asset is reduced to the extent that it is not possible to obtain a financial profit to enable to provide part or all of the deferred tax asset.

Deferred tax assets and deferred tax liabilities are mutually deducted from each other, provided that they are subject to the tax legislation of the same country and there is a legally enforceable right to offset current tax assets from current tax liabilities.

Period current and deferred tax

Current tax and deferred tax for the period, other than those associated with items that are directly accounted as receivable or debt in equity (in which case the deferred tax related to the relevant items is also accounted directly in equity) or arising from the initial registration of business combinations, are accounted as expense or income in the income statement.

2.4.32. Provisions

Provisions include obligations with indefinite time and amount and are calculated according to most realistic estimate made by the company's management. Provisions for the employee benefits under the Employee Benefit Standard TAS 19 include any provisions for financial sector activities, and other provisions showing any provisions allocated under the TAS 37 such as possible compensation, penalties and damages, reconstruction provisions, provisions allocated for financially disadvantageous agreements, etc.

KAFEİN YAZILIM HİZMETLERİ TİCARET A.Ş.

FOOTNOTES REGARDING CONSOLIDATED FINANCIAL STATEMENTS AS OF JUNE 30, 2021

(All amounts are expressed in Turkish Lira ("TL"))

Employee Benefits

The accrued liabilities (or provisions) needed to be shown in the financial statements under the UMS 19 "Employee benefits" are given in this item.

In case of severance pay, pension or dismiss, they are paid in accordance with the legislation in force in Turkey and the provisions of the collective labour agreement. Pursuant to the updated Employee Benefit Standard UMS 19 ("UMS 19"), such payments are defined as the identified pension benefit plans.

Under the legislation in force in Turkey, it is compulsory that a severance pay must be paid to employees, who complete their annual tenure of office and are dismissed without any reasonable reason, and are called for military service, deceased, and complete a tenure of office of 25 years for men or of 20 years for women, or get to the pension age. The severance pays are calculated upon a gross salary of 30 days per office year. The calculation involves real discount rates and the current values of the severance pay payable in the future as of the balance sheet date.

Any amendments made in the TAS 19 change the identified benefit plans and severance pay accounting. Most important amendment involves accounting of the identified benefit obligations and plan assets. If any amendments are made in realistic values of the identified benefit obligations and plan assets, such amendments must be entered and thus this eliminates the "corridor method" allowed in the previous version of the TAS 19, and facilitates entry of the past service costs.

Such amendments require calculating all actual losses and incomes immediately as other comprehensive incomes to show actual value of plan gap or surplus of the net pension asset or liability in the financial statement. Additionally, a 'net interest' amount calculated as a result of the discount rate applied to the identified net benefit liability or asset is used instead of any interest expenses for any estimated returns obtained the plan assets described in the previous version of the TAS 19. The amendments made in the TAS 19 are applied retrospectively.

According to the Group Personnel, actuarial profit / loss in the defined benefit plans is calculated and are presented in the financial statements.

Pension plans

The Group has no pension benefit plants.

2.4.33. Liabilities regarding Current Period Tax

Within the scope of TAS 12, the part of the taxes collected on income and expected to be paid to the tax administration in the periods following the subsequent period are presented under this item.

2.4.34. Deferred Tax Liability

This kind of tax refers to the income taxes to be paid in the following periods based on taxable temporary differences. "Deferred tax liability" item may not be used for non-taxable (continuous) amounts in terms of tax legislation.

The Group has no deferred tax liability as of the financial statement period.

2.4.35. Other Short-term/Long-term Liabilities

Short-term/ long-term liabilities, which are not shown under the abovementioned items such as inventory overages, other miscellaneous obligations and liabilities are given under this item.

2.4.36. Liabilities Regarding Group of Assets Held for Sale

Liabilities regarding the groups to be disposed, which will be recovered by means of selling rather than sustained use of carrying amount, are presented under this item within the scope of TFRS 5.

Besides, liabilities regarding the groups to be disposed, which are classified with intent to distributed to the shareholders as per TFRS, are also presented under this item hereby as of the date distribution to shareholders is committed. In this case, the name of the item may be given in a manner to refer to these obligations.

The Group has no liability for the asset groups held for sale as of the financial statement period.

2.4.37. Equities

Equities are the shares which are left behind after any and all obligations of the enterprise are deducted from the corporate assets. Contributed capital, share premiums, positive distinction from share capital adjustment, reserves on retained earnings, prior years' profits and losses and profit or loss for the financial year are presented under this item.

2.4.38. Positive Distinction from Share Capital Adjustment

As of the financial statement period, there is no positive difference in capital adjustment of the Group.

KAFEİN YAZILIM HİZMETLERİ TİCARET A.Ş.

FOOTNOTES REGARDING CONSOLIDATED FINANCIAL STATEMENTS AS OF JUNE 30, 2021

(All amounts are expressed in Turkish Lira ("TL"))

2.4.39. Repurchased Shares (-)

Within the scope of the paragraph 33 of the TAS 32, if a company purchases its own shares, purchase price of the said shares are deducted from equity and presented under "Repurchased Share (-)" item. In the case that shares are purchased by other parties under consolidation, purchased shares are still presented under this item but such amounts are presented under "capital adjustments due to cross-ownership" item as per TAS 32. Differences arising as a result of buying and selling of repurchased shares are not presented under profit or loss item.

As of the financial statement period, there is no positive difference in capital adjustment of the Group.

2.4.40. Capital Adjustments due to Cross-ownership (-)

This item is used with intent to assure that the paid-in capital of the company is presented by the amount registered in the legal records and for the purpose of adjusting the amount of paid-in capital under an item other than the paid-in capital in the event that the shares of the company are purchased by the parties under consolidation.

The Group does not have any capital adjustments due to cross-ownership as of the financial statement period.

2.4.41. Share premiums /discounts

In this item, amounts, which arise from capital movements such as share premiums, nullified equity interests, profits of share sales of controlling partners and deemed to be a part of the capital are presented.

Negative differences occurring due to the difference between nominal value of shares issued under nominal value and issue price are presented separately in the disclosures.

2.4.42. Other Accumulated Comprehensive Income and Expenses which cannot be reclassified under Profit or Loss

This item involves revaluation and measurement gains/losses (increases/decreases in tangible fixed assets revaluation, increases/decreases in intangible fixed assets revaluation, gains/losses on defined benefit plans re-measurement), which are defined as an item of other comprehensive income and reported directly as an item of equity in the period it appears and any circumstances as well as income items such as other gains and losses.

The Group has accumulated other comprehensive income/expenses arising from severance pay actuarial gains and losses not be reclassified to profit or loss.

2.4.43. Other Accumulated Comprehensive Income and Expenses which can be reclassified under profit or Loss

This item involves foreign currency conversion differences, revaluation and classification gains/losses (revaluation and/or classification gains/losses of available-for-sale financial assets, shares to be classified under profit/loss out of the profit of other comprehensive income of investments valued by equity method), which is defined as an item of other comprehensive income (expenses) and reported directly as an item of equity in the period it appears and can be written-down to profit or loss later , hedging gains and losses (gains and losses for hedging against cash-flow and investment risk regarding companies located abroad), and comprehensive income (expense) items such as other gains/losses.

The Group does not have any other comprehensive income or expenses to be reclassified to profit or loss as of the financial statement period.

2.4.44. Reserves on Retained Earnings (Non-distributable reserves)

These are the kind of reserves, which are retained due to obligations arising from the law and agreements or for certain purposes other than profit distribution (for example, in order to obtain tax advantage from earnings gained from sale of a subsidiary).These reserves shall be presented based on their amounts as specified in the legal records and differences occurring as a result of valuations conducted under TAS are associated with the profit/losses of the previous years.

2.4.45. Previous years' Profit/Loss

Profit/loss accumulated except for net profit for the year are offset and presented under this item. Extraordinary reserves, which are accumulated profit/loss by nature, thus not constrained are considered as profit and presented under this item.

2.4.46. Cash Flow Statement

The Group draws up cash flow statements in order to inform financial statement users about the changes that occur in the assets of the company, its financial structure and its ability to direct the amount and timing of cash flows according to the changing conditions. In a cash flow statement, cash flows related to a period are classified and reported based on operation, investment and financing activities.

KAFEİN YAZILIM HİZMETLERİ TİCARET A.Ş.

FOOTNOTES REGARDING CONSOLIDATED FINANCIAL STATEMENTS AS OF JUNE 30, 2021

(All amounts are expressed in Turkish Lira ("TL"))

Cash flows from operating activities show the cash flows which arise from the core activities of the Group. Cash flows related with investment activities show the cash flows which are used and obtained by the Group in its investment activities (tangible asset investments and financial investments). Cash flows related to financial activities show the resources used by the Group in its financial activities and the repayments related to such resources. Cash and cash equivalents consist of cash and checking account as well as short-term high-liquidity investments with a term of 3 months or less which can be easily cashed in.

2.4.47. Operating Activities

Operating activities provide core earnings/proceeds for a company. Activities which are defined below and not under the scope of the investment and financial activities are also evaluated as core activities.

Recording of Revenue / Proceeds

Revenue are reflected in the financial statements over an amount which reflects the cost that the Group expects to qualify for the transfer of the goods or services it commits to its customers within scope "TAS 15 Revenue from Customer Contracts" standards.

For this purpose, a 5-step process is applied in the recognition of revenue in accordance with TFRS 15 provisions.

- Identification of contracts with customers
- Determination of separate performance criteria and obligations in the contract
- Determination of contract price
- Distribution of Sales Price to Liabilities
- Record revenue as contractual obligations are met

When the Group fulfills the performance obligations committed in the customer contracts in accordance with TFRS 15, in other words, when the control of the goods and services is transferred to the customer, the proceeds are taken to the financial statements. The Group records its performance obligations over time or at a certain time.

If the timing of the payments agreed by the parties of the contract provides an important financial benefit, when the transaction cost is determined, the adjustment is made according to the effect of the time value of the money.

In case the Group foresees that the period between the date of the transfer of the goods or services committed to the customer at the beginning of the contract and the date on which the customer pays the price of such goods or services will be one year or less, it doesn't make any adjustment for the effect of a significant financing component by choosing the facilitating practice.

Additional explanations are given below for some important income groups.

Software Development Services

Software development services that constitute the main activity of the Group consists of services given to customer by man-hour-based agreement, or or the projected software development services. The control of the software development services is transferred to the customer as the service is provided and the customer consumes the benefit from this action at the same time.

The stage of completion of the contract is determined based on the time spent and the revenue generated from contracts, working hours and direct expenses are accounted over contract fees as they occur. Revenue from such services is recognized on an accrual basis as spread over time in accordance with the principle of periodicity based on the service hours given in accordance with the contractual principles.

In short-term and one-time services, the Group enters the income into the financial statements "at a certain moment of time" when it is transferred to the customer.

2.4.48. General Administrative Expenses, Marketing Expenses, Research and Development Expenses

Administrative expenses, marketing, sales and distribution expenses and research and development expenses, which are directly related with profit or loss within the scope of TAS 38- Intangible Fixed-Assets Standard are presented separately. The said expenses include depreciation and amortization costs as well as employee benefits.

(*) The Group associates research expenses directly with the statement of profit or loss in the period in which they are incurred. According to the findings of the research, the expenditures made within the scope of a project to produce a new product, software or program are defined as development and the development expenditures are capitalized by moving to the future periods when the future realizable value is assured. In this context, while the other costs and the costs incurred for the personnel who are directly involved in the creation of the Project are capitalized, it is taken into account how much time each staff takes in research and development activities. The cost of personnel related to research activities is recorded as expense when realized.

KAFEİN YAZILIM HİZMETLERİ TİCARET A.Ş.

FOOTNOTES REGARDING CONSOLIDATED FINANCIAL STATEMENTS AS OF JUNE 30, 2021

(All amounts are expressed in Turkish Lira ("TL"))

2.4.49. Other Main Operating Income/Expenses

Although not arising from core activities and excluded from income and expenses related to core activities, other real operating income/Expenses are earnings other than proceeds, losses unrelated to cost of sales, income and expenses related to the activities which are evaluated within the scope of core activities as not evaluated under scope of investment and financial activities.

2.4.50. Investment Activities

Investment activities are related to acquisition and disposal of other investments, which are not presented under long-term assets and cash equivalents. The activities deemed to be under scope of investment activities are assessed under TAS 7.

Investing activities profit/loss are determined by means of deducting the income and expenses related to the same. Profit shares or loss shares, if any, related to the investments valued by equity method are either added to or deducted from the respective item.

In the case that investments valued by equity method are a part of the reporting entity, such item is reported under "Operating Activities Section".

2.4.51. Financial Income/ Financial Expenses

Financing activities change the structure and amount of shareholders' equity and foreign funds. Activities under scope of financing activities are evaluated within framework of TAS 7.

In the event that outstanding interest accrues before acquisition of a security with interest; later- collected interest is classified under periods of pre-acquisition and post-acquisition and only shown in financial statements as income under post-acquisition.

Interests, which are charged to overdraft accounts and short-term and long-term borrowings, in case of foreign currency borrowings, provided these are considered as adjustments to interest costs, currency differences thereof shall be presented under financial expenses item.

2.4.52. Earnings per Share

Net earnings per share are calculated by dividing the main shareholder's earnings or loss (numerator) the ordinary shareholders into the weighted average of number of ordinary shares (denominator) of the relevant period. In order to calculate the diluted earnings per share, the group adjusts the main shareholder's earnings or loss of the ordinary shareholders and number of weighted average shares based on the impacts of the dilutive potential ordinary shares

2.4.53. Effects of Changes in Foreign Exchange Rates

Foreign exchange transactions are carried out by converting foreign currency into TL based on the foreign currency rate on the date of transaction. Foreign currencies, monetary assets and liabilities are converted into TL at the end of the period based on the currency rate which is valid on balance sheet date. The foreign exchange differences resulting from these types of operations are presented in the income statement/balance sheet.

2.4.54. Post-balance-sheet Events

Even though the post-balance sheet events emerge after the disclosure of any announcement regarding profit or other disclosure of other selected financial information, it covers all events between the date of the balance sheet and the authorization date for the publishing of the balance sheet. In the event that certain events require correction following the balance sheet date, the Group shall correct the amounts represented in the financial statements in accordance with the then current situation.

2.5. Important Accounting Evaluation, Estimation and Assumptions

The preparation of the financial statements requires using the estimates and assumptions which may affect the measurement of assets and liabilities reported as of the statement of financial position, disclosure of contingent assets and liabilities and income and expenses reported during the accounting period. Although these estimates and assumptions are based on the Group management's best knowledge of current events and transactions, actual results may differ from the assumptions.

2.6 New and Amended Turkish Financial Reporting Standards

Accounting policies adopted during the preparation of consolidated financial statements are applied consistently with the previous year's accounting policies except for new and changed Turkish Accounting Standards (TAS)/IFRS and TAS/IFRS Comments valid as of January 1,2020. The effects of these standards and comments on the Group's financial situation end performance are explained in the related paragraphs.

KAFEİN YAZILIM HİZMETLERİ TİCARET A.Ş.
FOOTNOTES REGARDING CONSOLIDATED FINANCIAL STATEMENTS AS OF JUNE 30, 2021
(All amounts are expressed in Turkish Lira ("TL"))

Amendments that are mandatorily effective from 2020

Amendments to TFRS 3	<i>Definition of a Business</i>
Amendments to TAS 1 and TAS 8	<i>Definition of Material</i>
Amendments to TFRS 9, TAS 39 and TFRS 7	<i>Interest Rate Benchmark Reform</i>
Amendments to TFRS 16	<i>COVID-19 Related Rent Concessions</i>
Amendments to Conceptual Framework	<i>Amendments to References to the Conceptual Framework in TFRSs</i>

New standards effective as of June 30, 2021, and changes and comments on existing previous standards:

Changes in TAS 1 and TAS 8 materiality definition;

Valid for annual reporting periods starting on January 1, 2020 or after this date. Changes in TAS 1 "Presentation of Financial Statements" and TAS 8 "Accounting Policies, Changes and Errors in Accounting Policies" and changes in other TFRSs depending on these changes are as follows:

- i) Use of materiality definition consistent with TFRS and financial reporting framework,
- ii) Clarification of the definition of materiality and
- iii) Inclusion of some guidance in TAS 1 regarding non-material information.

This change has no effect on the financial status and performance of the Group.

Amendments to TFRS 3 - business definition;

Valid for annual reporting periods starting on January 1, 2020 or after this date. With this change, the business definition has been revised. According to the feedback received by the IASB, current practice guidance is generally considered to be too complex, resulting in too much action to meet the definition of business combinations. This change has no effect on the financial status and performance of the Group.

Amendments in TFRS 9, TAS 39 and TFRS 7 - Indicative interest rate reform;

Valid for annual reporting periods starting on January 1, 2020 or after this date. These changes provide specific facilitating practices regarding benchmark interest rate reform. These practices relate to hedge accounting, and the effect of the IBOR reform should generally not lead to the end of hedge accounting. However, any hedging ineffectiveness should continue to be recorded in the income statement. Considering the prevalence of hedge accounting in IBOR-based contracts, these facilitating practices will affect all companies in the industry. This change has no effect on the financial status and performance of the Group.

Amendments to TFRS 16 COVID-19 Related Rent Concessions

The changes in COVID-19 Related Rent Concessions (Amendment to TFRS 16) brings practical expedient which allows a lessee to elect not to assess whether a COVID-19-related rent concession is a lease modification. The practical expedient applies only to rent concessions occurring as a direct consequence of COVID-19 and only if all of the following conditions are met:

- the change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;
- any reduction in lease payments affects only payments originally due on or before 30 June 2021 (a rent concession would meet this condition if it results in reduced lease payments on or before 30 June 2021 and increased lease payments that extend beyond 30 June 2021); and
- there are no substantive changes to other terms and conditions of the lease. The amendment is effective for annual reporting periods beginning on or after 1 June 2020. Earlier application is permitted.

This change has no effect on the financial situation and performance of the Company.

Amendments to References to the Conceptual Framework in TFRS

The references to the Conceptual Framework revised the related paragraphs in TFRS 2, TFRS 3, TFRS 6, TFRS 14, TAS 1, TAS 8, TAS 34, TAS 37, TAS 38, TFRS Interpretation 12, TFRS Interpretation 19, TFRS Interpretation 20, TFRS Interpretation 22, and SIC-32. The amendments, where they actually are updates, are effective for annual periods beginning on or after 1 January 2020, with early application permitted.

KAFEİN YAZILIM HİZMETLERİ TİCARET A.Ş.

FOOTNOTES REGARDING CONSOLIDATED FINANCIAL STATEMENTS AS OF JUNE 30, 2021

(All amounts are expressed in Turkish Lira ("TL"))

These standards, changes and improvements have no effect on the financial status and performance of the Group.

Standards and amendments that have been published but not yet effective as of December 31, 2020:

The Group has not yet adopted the following standards and amendments and interpretations to the existing standards:

TFRS 17	:Insurance Contracts
TAS 1 (Changes)	:Classification of Liabilities as Short and Long Term
TFRS 3 (Changes)	:References to the Conceptual Framework
TAS 16 (Changes))	:Tangible Fixed Assets - Intended Earnings Before Use
TAS 37 (Changes)	:Economically Disadvantaged Contracts - Cost of Fulfillment
Annual Improvements to TFRSs	:Amendment to TFRS 1, TFRS 9 and TAS 41 2018-2020
TFRS 9, TAS 39, TFRS 7, TFRS 4 and TFRS 16(Changes)	:Indicative Interest Rate Reform - 2nd Stage

TFRS 17, "Insurance Contracts"

Valid for annual reporting periods starting on or after January 1, 2023. This standard replaces TFRS 4, which currently allows a wide variety of applications. TFRS 17 will fundamentally change the accounting of all businesses that issue insurance contracts and investment contracts with discretionary participation features.

The amendment of TAS 1, "Presentation of financial statements" regarding the classification of liabilities;

Valid for annual reporting periods starting on or after January 1, 2022. These narrow amendments to TAS 1, "Presentation of financial statements", explain that liabilities are classified as current or non-current, depending on the rights existing at the end of the reporting period. The classification is unaffected by events after the reporting date or the entity's expectations (for example, obtaining a concession or breach of contract). The amendment also clarifies what TAS 1 means to "settle" an obligation.

Narrow amendments in TFRS 3, TAS 16, TAS 37 and some annual improvements in TFRS 1, TFRS 9, TAS 41 and TFRS 16;

Valid for annual reporting periods starting on or after January 1, 2022.

- TFRS 3 Amendments to business combinations; This amendment updates a reference to the Conceptual Framework for Financial Reporting in TFRS 3 without changing the accounting requirements for business combinations.

- Amendments to TAS 16 'Tangible fixed assets'; prohibits a company from deducting the income from the sale of manufactured products from the amount of the tangible fixed asset until the asset is ready for use. Instead, the company will reflect such sales revenue and related cost in profit or loss.

- Amendments to TAS 37, 'Provisions, Contingent Liabilities and Contingent Assets', this amendment specifies what costs a company includes when deciding whether a contract will be harmed or not. Annual improvements make minor changes to the explanatory examples of TFRS 1, 'First time implementation of International Financial Reporting Standards', TFRS 9 'Financial Instruments', TAS 41 'Agricultural Activities' and TFRS 16.

Amendments to TFRS 9, TAS 39, TFRS 7, TFRS 4 and TFRS 16 - Indicative interest rate reform Phase 2;

Valid for annual reporting periods starting on or after January 1, 2021. This Phase 2 change addresses issues arising from the implementation of reforms, including the replacement of a benchmark rate with an alternative.

Amendments to TFRS 17 and TFRS 4 Insurance Contracts, postponement of the application of TFRS 9;

Valid for annual reporting periods starting on or after January 1, 2021. These changes postpone the application date of TFRS 17 to January 1, 2023 for two years and the fixed date of the temporary exemption in TFRS 4 for the application date of TFRS 9 Financial Instruments standard has been postponed to January 1, 2023.

The said standard is not expected to have any impact on the financial status and performance of the Group.

Pledges and Mortgages on Assets

There are no pledges and mortgages on the tangible assets detailed above. (December 31, 2020: None)

NOTE 11 – INTANGIBLE ASSETS**-GOODWILL**

There is a total of 64.740.544 TL of goodwill, of which 38.839.427 TL as a result of the Group's acquisition of Karmasis in 2020, 10.294.528 TL as a result of the acquisition of Compello in 2019, and 15.606.589 TL as a result of the acquisition of Smartiks in 2018.

In the current period, Kafein has paid in cash and purchased %51 share as of November 12,2020 with the amount of 45.390.000 TL and the purchase transaction is valued in the frame of TFRS 3. The purchase price distribution still goes on, so as of December 31,2020 according to TFRS 3-Measurement Period provisions, 38.839.427 TL goodwill is recognized temporarily. Final amounts for the merger will be completed within one year from the merger transaction.

The Group tests for impairment of goodwill every year or in shorter periods in the case of situations indicating impairment.

Goodwill impairment test for Compello was conducted on 5-year projections prepared by the management between January 1, 2021 and December 31, 2025. No impairment was detected as a result of the impairment test conducted according to the current analysis.

The goodwill amount of 15.606.589 TL arises from Smartiks Yazılım A.Ş. and the Company is open to public. The final valuation for Smartiks is carried on for the dates of December 31,2020 and December 31,2019 and loss of value is not determined.

As of June 30,2021 and December 31, 2020, Movements of Other Intangible Assets are as follows:

NOTE 12- EQUITY**A-Paid-in Capital**

The Company's issued capital structure as of June 30, 2021 and 31 December 2020 is as follows:

Shareholders	June 30, 2021		December 31, 2020	
	Share Ratio %	Share Amount	Share Ratio %	Share Amount
Ali Cem Kalyoncu	25	4.938.382	25	4.938.382
Shares Under Public Offering	75	14.811.618	75	14.811.618
Paid-in Capital	100	19.750.000	100	19.750.000

The Group has adopted the registered capital system in accordance with the provisions of the Capital Market Law No. 6362 and has entered the registered capital system with the permission of the Capital Markets Board dated 30.06.2016 and numbered 21/729. The registered capital ceiling of the Group is TL 200.000.000 and is divided into 200.000.000 shares, each with a nominal value of 1 (one) Turkish Lira. The registered capital ceiling permission given by the Capital Markets Board is valid for the years 2020-2025 (5 years).

The Group's share capital on 31 December 2020 consists of 19.750.000 shares (31 December 2020: 19.750.000 shares). The nominal value of the shares is 1 TL per share (31 December 2020: 1 TL per share). All shares issued were paid in cash.

The issued capital of the Group is TL 19.750.000 and the issued capital has been paid completely free of collusion. This capital is divided into 19.750.000 shares with a nominal value of 1 TL each. These shares are divided into group (A), (B) and (C) shares with the same nominal values. Group (A) and (B) shares are registered shares and the transfer of these shares is subject to the approval by the Board of Directors decision. Group (C) shares are bearer shares and

KAFEİN YAZILIM HİZMETLERİ TİCARET A.Ş.**FOOTNOTES REGARDING CONSOLIDATED FINANCIAL STATEMENTS AS OF JUNE 30, 2021****(All amounts are expressed in Turkish Lira ("TL"))**

these shares may be transferred freely and without any restrictions. Group (A) and (B) shares have the privilege of being in the board or nominated as candidate by the board of directors. Group (C) shares are not granted any privilege. At the ordinary and extraordinary general assembly meetings of the Group, each (A) and (B) group shareholder has 15 (fifteen) voting right, and each (C) group shareholder has 1 (one) voting right, except for the election of the members of the board of directors

Name & Surname of Shareholder	Number of Share	Share Group	Capital ,TL
Ali Cem Kalyoncu	183.333	A	183.333
Ali Cem Kalyoncu	183.333	B	183.333
Ali Cem Kalyoncu	4.571.716	C	4.571.716
Other	14.811.618	C	14.811.618
Total	19.750.000		19.750.000

When increasing capital, in order to represent the increased capital, Group (A) shares in the ratio of Group (A) shares, Group (B) shares in the ratio of Group (B) shares, Group (C) shares in the ratio of Group (C) shares will be issued. In accordance with the provisions of the Capital Market Legislation, the Board of Directors is authorized to increase the issued capital by issuing new shares up to the registered capital ceiling, to restrict the rights of the privileged shareholders and to limit the right of the shareholders to buy new shares and to issue a decision on issuance of shares under the premium stock value or nominal value. The right to restrict the right to buy new shares cannot be used in a way that causes inequality among the shareholders.

b-Share Premiums (Discounts)

	June 30, 2021	December 31,2020
Share Premiums	31.066.576	31.066.576

c. Gains (Losses) on Remeasurement of Defined Benefit Actuarial Gain (Loss) Fund

The amendments to TAS 19 change the accounting for defined benefit plans and termination benefits. In accordance with the amendments made, changes in the fair values of defined benefit liabilities and fair value of assets are required to be recorded. Thus, the 'corridor approach', which was allowed in the previous version of TAS 19, is eliminated and the recording of past service costs is accelerated. The amendments require that all actuarial losses and gains be recognized immediately as other comprehensive income in order to reflect the full value of the plan deficit or surplus of the net retirement asset or liability which will be shown in the statements of financial position. In addition to this, A 'net interest' amount calculated as a result of the discount rate applied to the net defined benefit liability or asset is used instead of the estimated returns to be obtained from the plan assets explained in the previous edition of TAS 19 and the interest expense related to the plan assets.

Within this framework, the Group has calculated the actuarial gains/losses in the defined benefit plans regarding its employees and presented them in the financial statements.

	June 30, 2021	December 31,2020
Opening Balance	(515.833)	(416.870)
Subsidiary Effect	-	(26.137)
Revaluation gains(losses) in defined benefit plans	1.626.978	(331.866)
Deferred Tax Expense / Income	(325.396)	56.931
Given to minority share	(190.021)	202.109
Net Actuarial Gains / Losses	595.728	(515.833)

d- Restrained Reserves from Profit

According to the Turkish Commercial Code, legal reserves are divided into two groups as primary legal reserves and secondary legal reserves. Primary legal reserves are allocated as 5% of the legal net profit until 20% of the paid capital of company is achieved. As for the secondary legal reserves, they are 10% of the profit distributed which exceeds the 5% of the paid capital. According to the Turkish Commercial Code, if the general legal reserve does not exceed half of the capital or the issued capital, it may be used only to close the losses, to continue the business when the work is not going well or to prevent unemployment and to take measures to mitigate the results. Otherwise it is not possible to use it in any way.

June 30, 2021	December 31,2020
----------------------	-------------------------

KAFEİN YAZILIM HİZMETLERİ TİCARET A.Ş.**FOOTNOTES REGARDING CONSOLIDATED FINANCIAL STATEMENTS AS OF JUNE 30, 2021****(All amounts are expressed in Turkish Lira ("TL"))**

Legal Reserves	4.359.055	2.678.806
Subsidiary Sale Earnings Exemption to be Added to Capital (*)	41.793.259	
Real Estate Sales Earnings to be Added to Capital (*)	544.262	544.262
Total	46.696.576	3.223.068

(*) The Company sold the shares of Smartiks Yazılım A.Ş. on 25.06.2020 and 26.06.2020 which were previously acquired in 2018 and earned an income corresponding to 55.724.345 TL from this sale. 75% of the mentioned income corresponding to 41.793.259 TL has been deducted from the corporate income in determining the corporate tax base by making use of the provision of article 5/1-e of the corporate tax law numbered 5520.

(*)The Company sold its property, which it purchased in 2014, in 2017, and generated TL 725.683 of revenue from this sale. 75% of the mentioned income corresponding to 544.262 TL has been deducted from the corporate income in the determination of corporate tax base by benefitting from the provision of article 5/1-e of the corporate tax law no. 5520.

The Group holds 42.337.521 TL, which is the part of the profit that is benefited from the exception, in a special fund account in the liabilities until the end of the fifth year following the year in which the sale is made.

e-Previous Year Profits / Losses

Retained earnings other than the net profit for the period and accumulated losses are shown in this item. The extraordinary reserves that are retained by the nature of their accumulated profit and are therefore not restricted, are also recognized as retained earnings.

	June 30, 2021	December 31,2020
Extraordinary Reserves	3.232.188	3.107.187
Previous Years' Profits	60.154.381	74.260.169
Previous Year Profits / Losses	63.386.569	77.367.356

Dividend Distribution

The companies whose shares are traded in BIST are subject to the dividend requirement brought by the CMB as follows:

According to Article 19 of the Capital Markets Law No. 6362 entered into force on December 30, 2012 and the Communiqué on Dividends numbered II-19.1, which entered into force on 1 February 2014, the publicly-traded companies distribute profits in scope of the profit distribution policies to be determined by their general assembly, and as per the provisions of the relevant legislation. The Board may set different principles on the profit distribution policies of publicly traded companies on the basis of similar partnerships.

Unless reserve is set up as per TCC or the dividend determined for the shareholders under the main contract or under the dividend distribution policy, it is not possible to decide to distribute any other reserve fund, transfer the profit to the following year and distribute the dividend from the profit to the owners of bonus shares, the members of the board of directors, the employees of the partnership and the persons other than the shareholder.

In publicly held companies, dividends are distributed equally to all existing shares as of the date of distribution, regardless of their issuance and acquisition dates.

According to the regulations in force, the partnerships distribute their profits in accordance with the profit distribution policies to be determined by the general assemblies and in accordance with the provisions of the relevant legislation. In these arrangements, a minimum distribution rate has not been determined. Companies pay dividends as set out in their articles of association or profit distribution policies. In addition, dividends may be paid in installments of equal or different amounts and may distribute advance dividends in cash on the profit on interim financial statements.

Profit / loss per share	(0,45)	0,25	(0,17)	0,01

NOTE 21- FEATURE AND LEVEL OF RISKS ARISING FROM FINANCIAL INSTRUMENTS

Main financial instruments of the group are bank credits, cash and short-term bank deposits. The main reason for using these instruments is to create finance for the activities of the company. The group also possesses the financial instruments such as trade receivables and trade payables arising directly from the activities. Risks associated with the instruments being used are foreign exchange risk, interest risk, credit risk and liquidity risk. The group management handles these risks as follows:

a) Capital risk management:

The objectives of the group in the management of the capital are to provide its shareholders with benefit and to maintain the optimum capital structure for the purpose of reducing capital cost and sustaining the activities of the group.

Capital costs of the group, as well as the risks associated with each type of capital are evaluated by the top management. Based on the assessments of the top management, capital structure is aimed to balance through borrowing new loans or payment of existing loans as well as dividend payments, issuance of new shares.

The group monitors equity capital by using the ratio of liability/total equity capital. This ratio is obtained by the dividing of net liability into total equity capital. Net liability is calculated by the deduction of cash and cash equivalents from the total amount of liability (includes credits and trade payables as shown in the balance sheet).

As of the period-ends, the ratios net liability/total capital is as follows:

KAFEİN YAZILIM HİZMETLERİ TİCARET A.Ş.**FOOTNOTES REGARDING CONSOLIDATED FINANCIAL STATEMENTS AS OF JUNE 30, 2021**

(All amounts are expressed in Turkish Lira ("TL"))

	June 30, 2021	December 31, 2020
Total Liabilities	87.197.174	98.381.581
Minus: Cash and Cash Equivalents	11.777.971	28.066.969
Net Liability	75.419.203	70.314.612
Total equity Capital	223.578.649	228.821.324
Ratio for Net Liability /Total Capital	0,33	0,30

b) Loans and Receivables Risk Management:

Loan risk is a risk where a customer or other party cannot fulfil the requirements in the contract. Receivables risk, on the other hand, involves the possession of financial assets, the risk where other party is unable to fulfil the requirements of the contract, too. Loans and receivables risk of Partnership basically results from trade receivables. Group management offsets those risks by means of limiting the average risk for the other party (except for associative parties) presented at all agreements and getting guarantee if necessary.

Trade receivables are tackled taking into account the past experiences and current economic situation and, if required, shown as net in the balance sheet after the allocation of an appropriate amount of provision for bad debts by top management.

The Group applied the simplified approach specified in TFRS 9 to calculate the expected credit loss provision for trade receivables. This approach allows for the lifetime expected credit loss provision for all trade receivables. In order to measure expected credit losses, the Group has classified its trade receivables in terms of maturity. The expected credit loss ratio for trade receivables is calculated and the expected credit loss provision has been calculated by multiplying the determined rate and trade receivable sum by using past loan loss experiences.

c) Management of the Risks Due to Market and Foreign Exchange:

The Group is not sensitive to foreign exchange risk due to the fact that a significant portion of the Group's sales are not indexed to foreign currency and foreign currency and some portion of its trade payables are foreign currency. The costs are determined in Turkish Lira and represent a foreign currency risk conversely. Therefore, currency risk is minimized.

Required price adjustments are made instantly through tracking price changes in the market and market conditions regularly.

There is no change with respect to the last year regarding the market risk undergone by the group in the current year or the way of dealing with the risks encountered or the way of measuring these risks.

Foreign asset and liability of the group, foreign exchange position sheet in terms of original and TL currencies as of June 30, 2021 and December 31, 2020 are as follows:

e)Interest Rate Risk Management and Interest Rate Sensitivity

KAFEİN YAZILIM HİZMETLERİ TİCARET A.Ş.

FOOTNOTES REGARDING CONSOLIDATED FINANCIAL STATEMENTS AS OF JUNE 30, 2021

(All amounts are expressed in Turkish Lira ("TL"))

Due its assets bringing interest or liabilities interest is paid for, the group is vulnerable to interest rate risk arising from interest rate changes. This risk is handled by means of balancing the amount and terms of assets and liabilities being sensitive to interest rate via some techniques within the balance sheet and using derivative instruments, if necessary.

Within this scope, great importance is attached to the fact that not only the maturities of receivables and payables but also interest renewal periods are similar. In order for the financial liabilities to be affected minimally from the interest rate fluctuations in the market, "fixed interest / variable interest", "short-term / long-term "and TL / foreign currency balance of these debts are structured both within itself and within the framework of the asset structure. Since interest rates of corporate loans will remain constant until maturity, no interest rate risk has been calculated in this period.

NOTE 22-POST BALANCE SHEET EVENTS

June 30, 2021

- Financial statements were approved by the board of directors on August 17, 2021. Board members have the authority to change the financial statements.
